I think that Bud would be interested in this cable which sheds some light on the [ ] computer problem. If you feel he would be interested, too, perhaps you might forward this along. After Bud has finished with it, it might then be sent to [ ] who I note is not on the routing for this cable.

NOTE FOR: Dr. Wheelon

THRU

: [REDACTED]

25X1A

SUBJECT : Visit of Ambassador Clark

1. The State Dept has definitely confirmed that Amb. Clark will be out at the Agency on 18 Jan. The Director's office has also called to advise that Adm. Raborn will host a luncheon for Amb. Clark and you at 1215. Dick Helms will not be attending. I presume that you would just as soon limit the luncheon group to three. If you wish to include anyone else, please let me know.

2. Amb. Clark is scheduled to be escorted to the Director's office shortly after noon and at this point will not meet with the Director until 1215 in the Executive Dining Room. If any additional time is required for discussion with the Director, he will be available until 1345. At any time after you leave the Director, we will have time set aside for a DD/S&T briefing which would include John Crowley or [REDACTED] George Miller, [REDACTED] and yourself. The Amb. must leave the building by 1500 and DD/P has indicated a desire to talk with him for 30 minutes to an hour. I told OCR Liaison, who would handle any portion of his schedule related to Agency participation other than the Director and DD/S&T, which we are responsible for, that we would try and give them some idea of our time requirements as soon as we have the schedule firmed up.
